

DIPEN THAPA

PYTHON & DATA SCIENCE DEVELOPER | BIT STUDENT

tretime865@gmail.com | Bhaktapur, Nepal | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFILE

BIT student and data-focused developer who turns public datasets into clear analysis, interactive dashboards, and responsive web experiences. Built and deployed an end-to-end Nepal air quality project using Python, Pandas, Plotly, and Streamlit. Seeking an internship where I can contribute to data analysis, visualization, and frontend delivery.

SELECTED PROJECT

Nepal Air Quality Analysis

2026

[Live dashboard](#) | [Source code](#) | Python, Pandas, Plotly, Streamlit, Jupyter

- Analyzed Nepal's estimated mean annual PM2.5 exposure across 34 years (1990-2023) using World Bank data.
- Built a reproducible Python and Pandas workflow, then translated findings into clear Plotly visualizations.
- Published an interactive Streamlit dashboard and documented the complete project in a public GitHub repository.

EDUCATION

Bachelor of Information Technology (BIT)

Currently studying

Model Institute of Technology, Kathmandu, Nepal

Affiliated with International American University, USA

TECHNICAL SKILLS

Data: Python, Pandas, Jupyter Notebook, Plotly, Matplotlib, Streamlit

Frontend: React, JavaScript, Tailwind CSS, responsive interface development

Tools: Git, GitHub, VS Code, data cleaning, exploratory analysis, dashboard deployment

Cloud: AWS Cloud Foundations, core services, architecture, pricing, and support concepts

ACADEMIC FOCUS

- Developing practical foundations across data science, AI/ML, and responsive web development through project-based learning.
- Open to internships and collaborative projects where I can contribute, learn from experienced teams, and ship useful work.

CERTIFICATIONS & CREDENTIALS

AWS Academy Graduate - Cloud Foundations - Training Badge

Amazon Web Services Training and Certification | 31 July 2026 | [View badge](#)

Python (Basic) | HackerRank | 29 June 2026 | [View credential](#)

Time Management | Skill Lab - Career Service Lab | 6 June 2025 | [View credential](#)
